**GREENWOOD II**—Timberland has created this home to integrate the warmth of classic Craftsman style and the functionality of design to fit your modern lifestyle. This five bedroom home features the convenience of a secondary master on the main floor—what a great idea! Upstairs, relax in the huge master suite that boasts a sitting room and private covered deck. Three other bedrooms complete the second floor. The combined family room and kitchen make conversation and activity easy. Cozy up to the warmth of the fireplace in the open concept living and dining room—there's plenty of room. The covered porch welcomes your friends and family to this home that's loaded with character and intelligent design.
